EDUCATION

B.E. Computer Engineering

Gujarat, India | ~2016

Priyesh Doshi

Software Engineer · AI-Powered Business Software

Building scalable web applications, automation tools, and AI-powered workflows for SMEs and startups. 5+ years across full product lifecycles.

EXPERIENCE

Software Engineer

Mar 2025 – Present

CitNow Group

- Maintained and enhanced a large-scale legacy codebase with strong emphasis on clean architecture.
- Conducted peer code reviews improving readability, consistency, and long-term maintainability.
- Collaborated with designers, PMs, and engineers to ship client-facing production features.
- Designed and deployed AWS Lambda functions supporting scalable backend workflows.

Earlier Roles

Tuvoc Technologies DRC Systems ScrumWheel Technologies Infosys

FEATURED PROJECTS

Textile Wholesale Management & Quotation Platform

nilamsynthetics.com

Web platform for a textile wholesaler automating catalog sharing, role-based quotation generation, and print-ready PDF creation — eliminating manual WhatsApp workflows and reducing operational overhead to near-zero cost.

React.js Next.js Firebase Firestore Cloudinary Vercel

Contractor Management System — Kurti Manufacturer

kurti-manufacturing-app.vercel.app

Production-tracking app with automated billing templates, visual dashboards, and centralized payment ledger tracking — eliminating manual bookkeeping for a multi-contractor kurti manufacturing business.

React.js Supabase Vercel

ABOUT

Passionate about solving real-world problems for SMEs through thoughtful engineering. Experienced across the full product lifecycle — from architecture to deployment. Focused on clean, maintainable code and AI-assisted development workflows. Web development enthusiast since 2012.
